

Patología

Publicación oficial de la
Sociedad Española de Anatomía Patológica
y de la Sociedad Española de Citología

17th EUROPEAN CONGRESS OF PATHOLOGY
and
XIX SPANISH CONGRESS OF PATHOLOGY

BOOK OF PROCEEDINGS:
Keynote Lectures, Symposia,
Short Courses and Special Sessions

17 CONGRESO EUROPEO DE PATOLOGÍA
y
XIX CONGRESO ESPAÑOL DE PATOLOGÍA

LIBRO DE PONENCIAS:
*Conferencias Magistrales, Simposios,
Cursos Cortos y Sesiones Especiales*

BARCELONA, SPAIN
September 18-23, 1999

CONTENTS

PREFACE

A. Cardesa and G. Klöppel	257
---------------------------------	-----

KEYNOTE LECTURES

KEYNOTE LECTURE 1: Small round cell tumors. A challenge for surgical pathology: Past and future	259
A. Llombart-Bosch	
KEYNOTE LECTURE 2: Tumor-associated glycoconjugates and cell adhesion molecules: <i>In vivo</i> veritas?	261
J. Roth	
KEYNOTE LECTURE 3: Oncogenes and tumor suppressor genes	263
Genetic analysis of tumor development	
E. Santos	
KEYNOTE LECTURE 4: The role of <i>Helicobacter pylori</i> infection in gastric pathology	265
E. Solcia	

SYMPOSIA

SYMPOSIUM 1: Relevant topics in molecular pathology	
Cancer as a molecular disease of mucins and mucin glycosylation	267
L. David, F. Carneiro and M. Sobrinho-Simões	
Molecular mechanisms in diffuse-type gastric carcinoma: Diagnostic and therapeutic aspects	267
H. Höfler	
The <i>RET</i> protooncogene in the diagnostic molecular pathology of thyroid cancer	268
P. Komminoth	
Human <i>Papillomavirus</i> detection and cervical cancer screening	270
J.M.M. Walboomers	
SYMPOSIUM 2: New entities in pathology of soft tissue tumors	
Adipocytic tumors: New entities and evolving concepts	271
A.P. Dei Tos	
Tumors of uncertain histogenesis	273
L. Guillou	
Small round cell tumors of childhood	275
E. de Álava	
Vascular tumors	277
T. Mentzel	
Fibrous and myofibroblastic tumors	279
C.D.M. Fletcher	

SYMPOSIUM 3: Advances in surgical pathology of the ovary

Laparoscopic surgery of the ovary: The pathologist's role	283
<i>S. Carinelli</i>	
Recent advances in mucinous tumors	284
<i>J. Prat</i>	
Simultaneous carcinomas involving the endometrium and ovaries	287
<i>X. Matias-Guiu</i>	
Recent advances in sex cord-stromal tumors	288
<i>I. Macedo Pinto</i>	
Neuroendocrine tumors of the ovary	289
<i>J. Kupryjańczyk</i>	

SYMPOSIUM 4: Advances in liver pathology

Liver biopsy in 2000. The pathologist's view	291
<i>V.J. Desmet</i>	
Natural history of liver fibrosis	292
<i>P. Bedossa</i>	
Alcoholic and nonalcoholic steatohepatitis	293
<i>K. Zatloukal, C. Stumptner and H. Denk</i>	
Hemochromatosis: Recent molecular findings	294
<i>T.M. Cox</i>	
Stem cells in liver carcinogenesis	295
<i>S. Thorgeirsson</i>	
Hepatocellular carcinoma	297
<i>P.P. Anthony</i>	

SYMPOSIUM 5: Advances in breast pathology

The role of metalloproteinases in breast lesions	299
<i>M.J. Merino</i>	
Molecular genetic analysis of epithelial hyperplasia and normal tissues in breast	300
<i>S.R. Lakhani</i>	
Multistep model of the genetic alterations leading to breast cancer	301
<i>M.J. van de Vijver</i>	
Myoepithelial differentiation in breast carcinoma	301
<i>G. Bussolati</i>	
The role of molecular prognostic factors in breast cancer	302
<i>I.O. Ellis</i>	
Newly described entities	304
<i>V. Eusebi</i>	

SYMPOSIUM 6: Prognostic factors in non-Hodgkin's lymphomas

Molecular pathogenesis of germinal-center derived non-Hodgkin's lymphoma	305
<i>R. Dalla-Favera</i>	

Prognostic factors in mucosa-associated lymphoid tissue	305
<i>D. de Jong</i>	
Prognostic factors in diffuse large B-cell lymphomas	306
<i>R. Gascoyne</i>	
Prognostic factors in mantle cell lymphoma	308
<i>E. Campo</i>	
SYMPOSIUM 8: Progress in bone marrow pathology	
Myelodysplastic syndromes	311
<i>F. Delacrétaz</i>	
Pediatric preleukemic disorders	313
<i>J.G. van den Tweel</i>	
Bone marrow involvement in non-Hodgkin's lymphoma according to the REAL classification	314
<i>C. de Wolf-Peeters</i>	
Philadelphia chromosome-negative (Ph ¹ -) chronic myeloproliferative disorders. A synoptic approach	315
<i>J. Thiele</i>	
Chronic myelogenous leukemia. An update	316
<i>A. Georgii, G. Buesche, Th. Buhr, J. Thiele, R. Hehlmann</i> <i>and the German Chronic Myelogenous Leukemia Study Group</i>	
SYMPOSIUM 9: Selected topics in pediatric pathology	
Perinatal gastrointestinal pathology	318
<i>M. Malone</i>	
Gastric pathology in pediatric Crohn's disease	319
<i>M. Peuchmaur</i>	
Childhood gastrointestinal infections and infestations as seen in the tropics	320
<i>R. Kaschula</i>	
Examination of the placenta in late intrauterine death: What can we tell about cause and recurrence risk?	322
<i>T. Stallmach</i>	
SYMPOSIUM 10: Progress in laryngeal pathology	
Laryngeal precancerous lesions: Current diagnostic and prognostic considerations	325
<i>N. Gale</i>	
Clonality studies in multiple head and neck cancers: p53 mutations compared with LOH at 3p, 9p and 17p loci ...	326
<i>M.C.G.T. Van Oijen, G.W.A. Tjebbes, F.G.J. Leppers vd. Straat, M.G.T. Tilanus, G.J. Hordijk and P.J. Slootweg</i>	
Laryngeal spindle cell, verrucous and basaloid squamous carcinoma	327
<i>H.B. Hellquist</i>	
Adenocarcinomas and salivary gland neoplasms of the larynx	329
<i>M.A. Luna</i>	
Gene alterations in precancerous and cancerous lesions of the larynx	330
<i>A. Nadal</i>	
Squamous papilloma of the larynx	332
<i>L. Michaels</i>	

REVISTA ESPAÑOLA DE Patología

SYMPOSIUM 11: Relevant topics in pathology of transplantation

The Banff 97 classification of renal allograft pathology	334
<i>P. Furness</i>	
A simplified classification system for acute renal allograft rejection (CCTT)	335
<i>R.B. Colvin</i>	
Polyomavirus infection of renal allografts	336
<i>V. Nicleleit, H.H. Hirsch, G. Thiel and M.J. Mihatsch</i>	
Capillary C4d: A tool for the diagnosis of transplants at risk	338
<i>H.E. Feucht</i>	
Post-transplant lymphoproliferative disease	338
<i>P.S. Randhawa</i>	
What is borderline renal allograft rejection?	339
<i>V. Nicleleit, M. Zeiler, G. Thiel and M.J. Mihatsch</i>	

SYMPOSIUM 12: Selected topics in cardiovascular pathology

Directional coronary atherectomy specimens. What have we learned from them?	341
<i>A.E. Becker</i>	
The endothelium as a multifunctional organ: From sepsis to tumor metastasis	341
<i>C.J. Kirkpatrick</i>	
Arrhythmogenic right ventricular cardiomyopathy: Pathology and genetics	343
<i>G. Thiene, C. Basso, A. Angelini, F. Calabrese and M. Valente</i>	
Pathology of large vessel vasculitides	344
<i>P. Bruneval</i>	
Myocarditis. How do we make a biopsy diagnosis?	345
<i>U. Baandrup</i>	

SYMPOSIUM 13: Environmental pathology

Environmental pathology of the nervous system	347
<i>G.J. Krinke, W. Classen and T. Skripsky</i>	
Test strategies for the identification of endocrine active chemicals. An industry point of view	349
<i>H.P. Gelbke</i>	
Pulmonary toxicity and risk assessment of pesticides contained in house dust and smoke	350
<i>J. Pauluhn</i>	
Adverse effects of environmental exposures may occur not only in the individuals directly exposed, but also in their progeny	352
<i>L. Tomatis and U. Mohr</i>	
Experimental adenocarcinoma of the esophagus: Implications in the sequence Barrett's esophagus-adenocarcinoma	352
<i>M. Pera</i>	
Biological investigations of environmental and occupational compounds using an alternative <i>in vitro</i> concept	353
<i>M. Aufderheide, J.W. Knebel and W. Koch</i>	

SYMPOSIUM 14: Advances in standardization of immunohistochemistry (sponsored by DAKO)

Tissue fixation and antigen retrieval	355
<i>M. Werner</i>	
Comparative immunostaining among 15 different detection systems	356
<i>M. Gambacorta</i>	

CONTENTS

Standardization of reporting and quantitation	357
<i>H. Battifora</i>	
Automation in immunohistochemistry	358
<i>J.R. Riera</i>	
External quality assessment of immunocytochemistry: The experience of the UK National External Quality Assessment Scheme	360
<i>K. Miller</i>	
SYMPOSIUM 15: Progress in bone pathology	
Genetic instability in osteoblastic bone tumors	362
<i>A. Roessner, K. Hauptmann, R. Schneider-Stock, U. Mittler and H.W. Neumann</i>	
The value of immunohistochemistry in the diagnosis of primary bone tumors	362
<i>J. Pringle</i>	
Core needle biopsy in the diagnosis of bone lesions	363
<i>E. Santini Araujo</i>	
Osteosarcoma of the bone	364
<i>K.K. Unni and D.C. Dahlin</i>	
The histological response to chemotherapy as a predictor of the oncological outcome of operative treatment of Ewing's sarcoma	365
<i>A.G. Huvos</i>	
Enchondroma versus low-grade central chondrosarcoma	365
<i>M. Calvo</i>	
Immunosuppression. Rare and not so rare osteoarticular infections	366
<i>J.C. Lorenzo</i>	
SYMPOSIUM 16: Advances in prostate pathology	
Comparison of benign, premalignant and malignant lesions of the prostate in routine and consultation material ..	367
<i>B. Helpap, J. Köllermann and U. Oehler</i>	
Morphogenetic concepts of normal and abnormal growth in the human prostate	368
<i>H. Bonkhoff and K. Remberger</i>	
Atypical adenomatous hyperplasia, atypical small acinar proliferation and prostatic adenocarcinoma	369
<i>S. Hailemariam, J. Köllermann and B. Helpap</i>	
Angiogenesis in prostate cancer and prostatic intraepithelial neoplasia	371
<i>R. Montironi and R. Mazzucchelli</i>	
Molecular diagnosis of prostate adenocarcinoma with emphasis on screening programs	372
<i>C. Lopes and R. Medeiros</i>	
Benign and malignant stromal lesions of the prostate	374
<i>A. López Beltrán</i>	
SHORT COURSES	
SHORT COURSE 1: Tumors of the kidney in adults	
An overview of the renal cell carcinoma classification	377
<i>F. Algaba</i>	
Pediatric-type renal tumors in the adult	377
<i>L. Boccon-Gibod</i>	
Clear renal cell carcinoma: Present status and grading	379
<i>R. Montironi and A. Santinelli</i>	

REVISTA ESPAÑOLA DE Patología

Papillary (chromophil) renal cell carcinoma	380
<i>J.F. Val-Bernal</i>	
Chromophobe renal cell carcinoma (differential diagnosis with clear/granular cell carcinoma and oncocytoma)	381
<i>S. Störkel</i>	
Unclassified renal cell carcinomas	382
<i>F. Algaba and T.M.S. Figueiredo</i>	
SHORT COURSE 2: Selected topics in infectious diseases	
HIV-1 related lymphoid proliferations	385
<i>S. Uccini</i>	
JC virus and glial cells: Viral strategies for cell cycle deregulation in progressive multifocal leukoencephalopathy	386
<i>A. Ariza</i>	
Human herpesvirus 8 and its diseases	387
<i>G. Cathomas</i>	
Prions and the immune system	389
<i>A. Aguzzi, S. Brandner, R. Frigg, A.J. Raeber, I. Hegyi, C. Röckl, M.B. Fischer, V. Pekarik, G.F. Huber, C. Musahl, H. Furukawa, M. Glatzel, P. Parizek and M.A. Klein</i>	
SHORT COURSE 3: Progress in non-neoplastic pulmonary pathology	
Mimics of asbestos-related disease	390
<i>R.L. Attanoos</i>	
Pathology of nonasbestos pneumoconiosis (silicosis and mixed dust pneumoconiosis)	392
<i>K. Honma</i>	
Perspectives of cellular sociology in chronic interstitial lung diseases	394
<i>K. Kayser, S. Zink, E. Hauck, V. Schulz and H.-J. Gabius</i>	
Etiology, pathogenesis and differential diagnosis of lung granulomatosis. An update	395
<i>H.H. Popper</i>	
Pulmonary emphysema revisited	396
<i>E. Álvarez-Fernández</i>	
SHORT COURSE 4: Short Course in honor of Christoph E. Hedinger:	
Progress in pathology of diseases of the extrahepatic biliary tract and the duodenum	
Lessons from duodenal biopsies	397
<i>M. Walker</i>	
Tumors of the ampulla: Pathogenesis and prognostic factors	398
<i>G. Zamboni and A. Scarpa</i>	
Duodenal neuroendocrine tumors	400
<i>P. Komminoth</i>	
Gangliocytic paragangliomas of the duodenum	402
<i>J. Lechago</i>	
Duodenal lesions in patients with polyposis	403
<i>K. Geboes</i>	
Extrahepatic biliary lesions	405
<i>G. Cathomas</i>	
Inflammatory and tumor-like lesions of the ampulla	407
<i>P. Bedossa</i>	

CONTENTS

SHORT COURSE 5: Progress in diagnostic cytology	
Differential diagnosis in aspiration cytology of head and neck tumors	409
<i>W. Olszewski</i>	
Fine needle aspiration cytology of lymph nodes	410
<i>M.E. Mendonça</i>	
Aspiration cytology of soft tissue tumors	411
<i>B. Hagmar and L. Walaas</i>	
Aspiration biopsy of bone tumors	412
<i>H. Galera-Davidson</i>	
SHORT COURSE 6: Pathology of the endometrium	
Endometrial changes in modern hormonal treatment	414
<i>C. Bergeron</i>	
Endometrial pathology of tamoxifen	415
<i>F. Nogales</i>	
Advances in molecular biology in the endometrium	416
<i>T. Löning, A.M. Bamberger and L. Riethdorf</i>	
Aggressive forms of endometrial carcinoma	417
<i>V.M. Abeler</i>	
Mesenchymal tumors of the uterus	418
<i>T.P. Rollason</i>	
SHORT COURSE 7: Molecular pathology	
DNA analysis: Biological and morphological methods	420
<i>G. Bevilacqua</i>	
RNA analysis: Biological and morphological methods	421
<i>G. Stanta</i>	
Molecular biology of tumor progression	422
<i>J. Costa</i>	
Molecular detection of micrometastases: Its impact on the assessment of prognosis	422
<i>A. Marchetti</i>	
Viral genes in human tumors	423
<i>S. Ramón y Cajal</i>	
SHORT COURSE 8: Recent advances and controversies in soft tissue pathology	
Grading of sarcomas at the Mayo Clinic 75 years after Broder	424
<i>A.G. Nascimento</i>	
On the comparison of apples, oranges and sundry fruits:	
Problems with grading and prognostication in soft tissue tumors	426
<i>J.M. Meis-Kindblom</i>	
Immunohistochemistry of soft tissue tumors. An update	427
<i>M. Miettinen</i>	
Fine needle aspiration of soft tissue tumors in Sweden. A little goes a long way	428
<i>W. Ryd</i>	

REVISTA ESPAÑOLA DE Patología

Fine needle aspiration of soft tissue tumors: The Mayo Clinic perspective	429
<i>A.G. Nascimento</i>	
Pathogenesis and prognostic parameters in synovial sarcoma	430
<i>J.M. Lopes</i>	
When will cancer genetics and biology give us something clinically useful?	430
<i>V.P. Collins</i>	
SHORT COURSE 9: Update on salivary gland tumors	
Malignancy in pleomorphic adenoma	431
<i>S. Di Palma</i>	
Clear cell tumors	432
<i>R.H.W. Simpson</i>	
Squamous and oncocytic metaplasia in salivary gland tumors	433
<i>J.W. Eveson</i>	
Progression to low-grade and high-grade salivary gland tumors	434
<i>J. Soares</i>	
Molecular biology and immunohistochemistry	435
<i>H.B. Hellquist</i>	
SHORT COURSE 10: Metaplasia in the gut	
Overview of gastrointestinal metaplasias	436
<i>J. Stachura</i>	
Metaplasia in Barrett's esophagus: A specific phenotype?	437
<i>J.F. Fléjou</i>	
Intestinal metaplasia	438
<i>N. Ectors</i>	
Metaplasia in the ileal reservoir	439
<i>N. Shepherd</i>	
Metaplasia in the pancreas	441
<i>J. Lüttges</i>	
Functional aspects of gastrointestinal metaplasias	442
<i>N.A. Wright</i>	
SHORT COURSE 11: Pigmented lesions of the skin	
Problematic melanocytic nevi	447
<i>P.H. McKee and F.R.C. Path</i>	
Spindle cell melanocytic tumors	448
<i>W.J. Mooi</i>	
Dysplastic melanocytic nevus: Under- and overdiagnosis	450
<i>F. Contreras</i>	
Nevoid malignant melanoma	451
<i>N.S. McNutt</i>	
Immunohistochemistry and molecular biology in the management of melanocytic lesions	452
<i>V.G. Prieto</i>	

CONTENTS

SHORT COURSE 12: Advances in diagnostic electron microscopy	
Electron microscopy in analysis of skin diseases	454
<i>W.H. Muss</i>	
The contemporary role of electron microscopy in the diagnosis of mitochondrial encephalomyopathies	454
<i>K.C. Kyriacou and T. Kyriakides</i>	
Electron microscopy in the diagnosis of inherited connective tissue diseases	457
<i>J.A. Grimaud</i>	
Electron microscopy of melanin-synthesizing tumors	457
<i>J. Lloreta Trull</i>	
SHORT COURSE 13: Pre- and postgraduate teaching in pathology	
Modern communication systems for teaching and education	461
<i>M. Dietel</i>	
New approaches to testing medical students	462
<i>I. Damjanov</i>	
Devising examinations in pathology: Objectives and difficulties	463
<i>C. Berry</i>	
Interpat: An interactive method for teaching pathology	463
<i>F.J. Pardo-Mindán</i>	
SHORT COURSE 14: Divergent differentiation in endocrine tumors	
Mixed exocrine-endocrine tumors of the gastrointestinal tract	465
<i>G. Klöppel and J. Lüttgas</i>	
Mixed exocrine-endocrine tumors of the gastrointestinal tract	466
<i>C. Capella, F. Sessa, M. Cornaggia, S. La Rosa and S. Uccella</i>	
Divergent differentiation in neuroendocrine lung tumors	467
<i>E. Brambilla</i>	
Divergent differentiation in thyroid tumors	468
<i>M. Sobrinho-Simões, A.P. Soares, A.S. Rocha, E. Fonseca, M. Papotti, P. Komminoth and G. Bussolati</i>	
SPECIAL SESSIONS	
SPECIAL SESSION 1: Telomeres and telomerases	
General concepts and technical considerations	471
<i>P. Bedossa</i>	
Telomerase activation in human tumors	471
<i>F. Bosman, P. Yan and J. Benhattar</i>	
SPECIAL SESSION 2: Relevant topics in immunopathology	
Genetically determined primary immunodeficiencies: The role of thymic lesions in T-cell immunodeficiencies	473
<i>C. Nezellof</i>	
Opportunistic tumors associated with acquired immune deficiencies	475
<i>H.L. Ioachim</i>	
Cutaneous graft-versus-host disease	477
<i>C. Monteagudo</i>	
New developments in the pathogenesis of systemic vasculitis	478
<i>M.C. Cid</i>	

REVISTA ESPAÑOLA DE Patología

CONTENTS

Antineutrophil cytoplasmic autoantibodies in pathology: Major autoantigens and disease associations	479
<i>A. Vizjak</i>	
Vascular pathology in systemic lupus erythematosus: Crossroads of immune complex vasculitis and vasculopathy, thrombotic microangiopathy and arteriosclerosis	481
<i>D. Ferluga</i>	
AUTHOR INDEX	485
